## **Fourth Announcement**

International Meeting on

### **HIGH-ENERGY PHENOMENA IN RELATIVISTIC OUTFLOWS V**

La Plata city, October 5-8, 2015

Webpage: <http://hepro5.iar.unlp.edu.ar/>

The series of conferences High-Energy Phenomena in Relativistic Outflows, HEPRO, reaches now its fifth instalment. HEPRO V will take place in La Plata, Argentina, from October 5th to 8th, 2015, hosted by the [Group of Relativistic Astrophysics and Radio Astronomy](#) (GARRA) of the Instituto Argentino de Radioastronomía (IAR). The conference will be devoted to the presentation and discussion of hot recent observational, phenomenological, and theoretical developments in the field of high-energy phenomena associated with relativistic winds and jets. There will be both invited reviews and highlighted talks that will cover the most recent work in the field. Plenty of time will be devoted to discussions.

#### **Conference Program**

The **book of abstracts** and the **conference program** are available in the meeting's webpage. The duration of invited talks is 50 min (40 + 10 for questions), highlight talks 30 min (25 + 5), and contributed talks 20 min (15 + 5). The maximum size of posters is 120 cm (height) x 85 cm (width).

#### **Conference Proceedings**

The **proceedings** of HEPRO V will be published by the [Argentinian Astronomical Society](#) as a special volume of its Workshop Series. All articles will be peer reviewed and the book will be published online with open access. The LaTeX templates will be available soon.

## Travel

The international airport serving La Plata is Ministro Pistarini Airport, usually known as “Ezeiza”. The travel time Ezeiza-La Plata is about 1.5 h by car.

The company Manuel Tienda León offers a shuttle service Ezeiza-La Plata-Ezeiza six times a day; this is the most convenient option considering cost and quality of service. Detailed information on departure times, fares, methods of payment, etc., is attached to this email and on the meeting’s webpage. There is also the alternative of hiring a “remis” (a car with chauffeur). Several remis companies (including Manuel Tienda León) operate in Ezeiza; they work on demand, no reservation is needed. The cost of a remis Ezeiza-La Plata is about 900 Argentinian Pesos (~USD 90 for a distance of around 100 km).

Buenos Aires domestic airport is Aeroparque Jorge Newbery. Some international flights, mainly from neighboring countries, are based in Aeroparque as well. The cost of a remis Aeroparque-La Plata is about 800 Argentinian Pesos (~USD 80). The company ArBus offers free buses Ezeiza-Aeroparque-Ezeiza twice a day, and Aeroparque-La Plata-Aeroparque four times a day from Monday to Friday and twice a day on weekends. This service is, however, only available for flyers travelling with Aerolíneas Argentinas. No reservation is needed, passengers are admitted upon presentation of their boarding pass or electronic ticket of the same day. Please check the attachment or our webpage for details. ArBus also connects Aeroparque with a few fixed locations downtown Buenos Aires. This service is available for passengers of all airlines for a flat fare of 30 Argentinian Pesos. For further details on Arbus see <http://arbus.com.ar/en/>.

## Accommodation in La Plata

Participants are expected to make their own **lodging arrangements**. If you have not booked yet, we strongly recommend to do so as soon as possible. Other meetings will take place in La Plata the same week as HEPRO V and the availability of accommodation may be limited. Do not hesitate to contact us if you need help.

## Conference dinner

The conference dinner will take place on **Wednesday October 7<sup>th</sup> in restaurant “A Pampa!”**. The menu is one of typical Argentinian dishes. Vegetarian, gluten-free and salt-free alternatives are available upon request; if possible, please let us know in advance if you need a special menu. The cost of the dinner is USD 40, transportation included, to be paid cash the first day of the conference.

Additional information and details are available at the **webpage** of the meeting, <http://hepro5.iar.unlp.edu.ar>.

We look forward to seeing you in La Plata!

Gustavo E. Romero, on behalf of the organizers
